Short Description

- A coarse loop-twisted non-absorbent fiber to scrape heavy debris from foot traffic
- Aggressive fibers resist crushing while entrapping debris and preventing it from entering the facility
- Low profile entrance mat to perform in narrow clearance doorways
- Vinyl backing ensures minimal buckling and mat movement
- Can be used as the first section (Scraping) of the “Stages” entrance mat system

Description

Prelude™ is a scraper mat made up of a coarse loop-twisted non-absorbent fiber that can be placed outside the entrance to begin the removal of dirt and debris from foot traffic. These aggressive fibers resist crushing while entrapping debris and preventing it from entering the facility. This mat can be used as a stand-alone mat, or as the first stage of the coordinated “Stages” entrance matting system. A heavy-weight vinyl non-slip backing ensures minimum movement.
