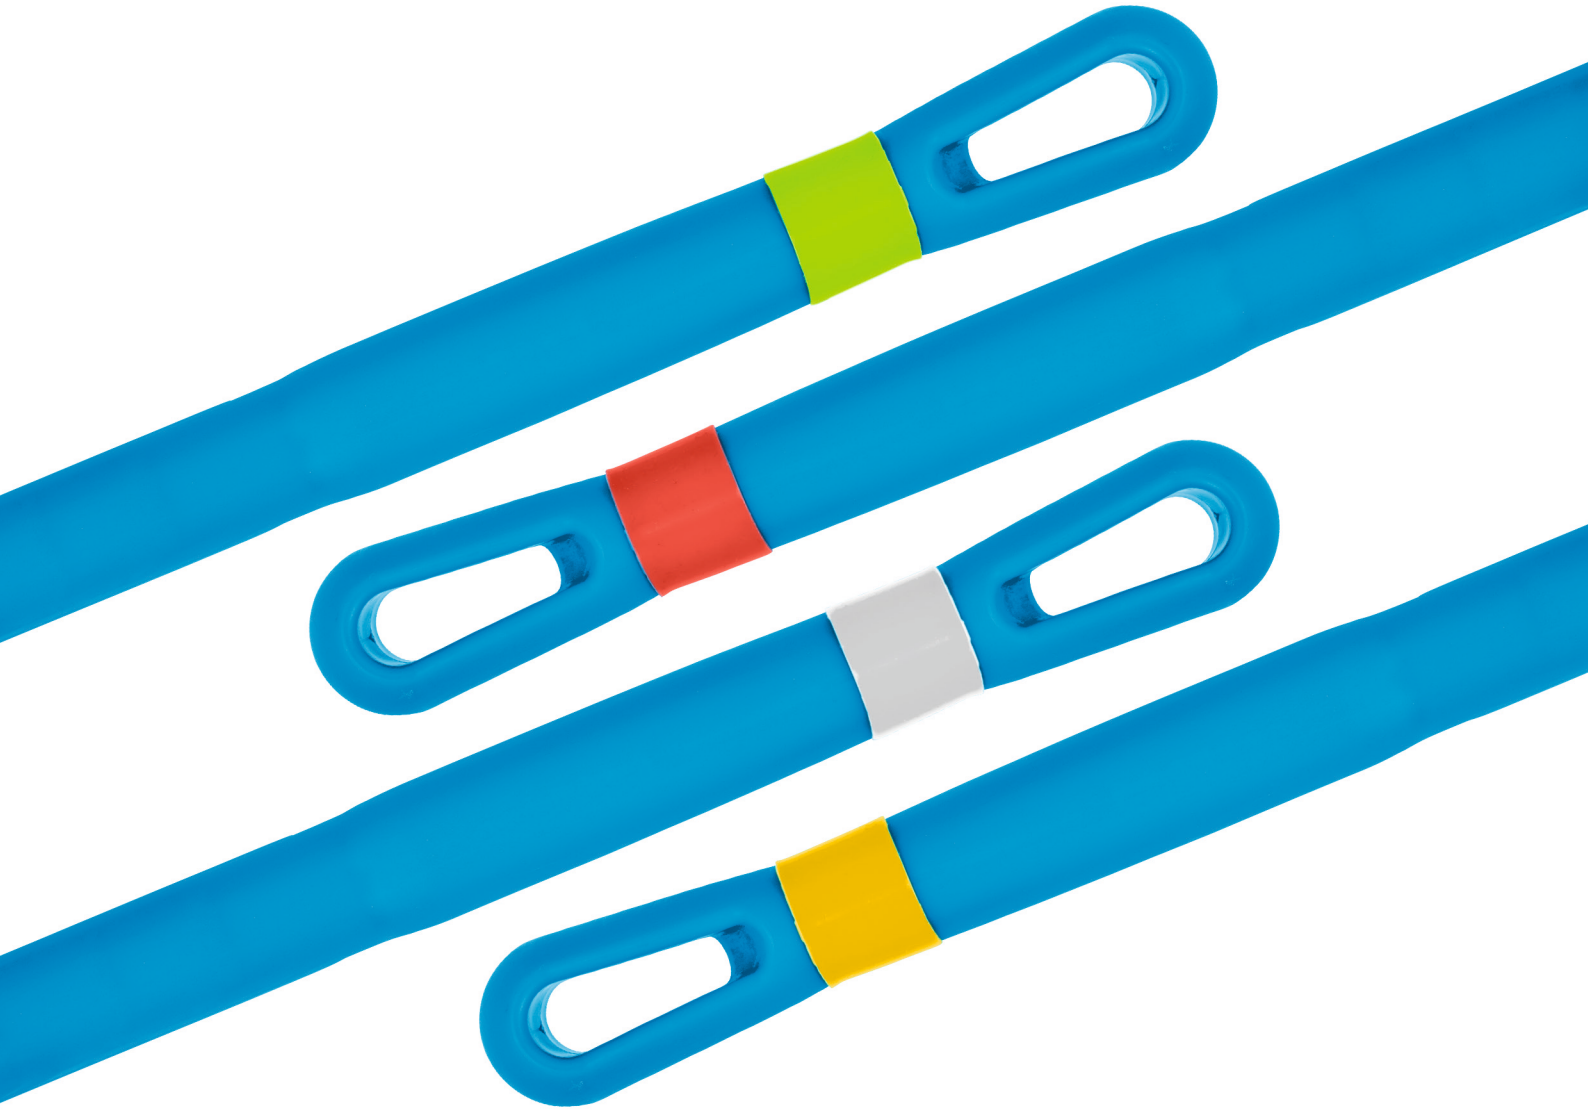
Optimise Food Safety

With the new secondary colour-coding options



Vikan
ADVANCING HYGIENIC CLEANING

Expanding Your Options

With this new line of silicone bands, Vikan are providing a more hygienic, food safe, durable and professional solution of secondary colour coding for users with complex colour-coding needs. Sized for use on both handles and vacuum cleaner nozzles, this new option will help you...

- Minimise the risk of microbial cross-contamination
- Minimise the risk of allergen cross-contamination
- Minimise the risk of foreign bodies
- Minimise the risk of flavour transfer between products
