100% - 200 Lumens
Run Time: 2 Hours
Viewing Distance: 92 Meters

Strobe - 200 Lumens
Run Time: 4.5 Hours
Viewing Distance: 92 Meters

Taking the EDGE™ series to the next level is the EDGE™ 200. The EDGE™ 200 features 200 lumens of powerful white light. Crowning the top of the EDGE™ is the aggressive self-defense face. Much like the EDGE™90 the aggressive bezel can be removed to have a less aggressive, smooth face. The aggressive lines and angles of the aircraft grade aluminum body allow for proper heat dispersion as well as ensuring a steady grip. The dual-direction belt clip works well in the pocket or on a hat to serve as a cap light. Controlling the 2 light modes is the glow-in-the-dark button located at the base of the flashlight.
