This Chemical Compatibility Guide is offered for informational purposes only and was developed from information sources other than SpillTech. The information from such third party sources is believed to be reliable and accurate; however, Purchaser should make its own determination of compatibility before using any SpillTech product.
Ratings are based on visual physical examination of sample after removal from immersion in the test chemical at room temperature. Results represent ability of the material to retain its performance properties when in contact with test chemical.
It is the sole responsibility of the Purchaser to determine whether any product is suitable for Purchaser's actual or intended uses.

NO GUARANTEE, WARRANTY, OR REPRESENTATION IS MADE, INTENDED, OR IMPLIED AS TO THE CORRECTNESS OR SUFFICIENCY OF THE CHEMICAL COMPATABILITY GUIDE OR ANY INFORMATION SUPPLIED HEREIN.
