

PROVEN POWER IN A SMALL FOOTPRINT

DC power now comes in a smaller package. Our slimline single phase models measure as small as 32 mm wide to conserve valuable space on the DIN Rail and in the overall control cabinet!

DM Series Features:

Universal input eliminates voltage gaps for full product application versatility

Adjustable output voltage compensates for voltage drop

"DC OK" LED indicator identifies local output status

IP20 Touchsafe rating

Compact, narrow design provides significant space savings

Industrial design with rugged metal case and mounting clip makes installation easy

Power factor correction minimizes harmonic distortion

Additional DIN Rail Products

DM Duplex Receptacle

Part No. DRR-15 (15 Amp)

Part No. DRR-15GFI (15 Amp-GFI)

Provides safe access power for testing and maintenance
